REV. AND DEAR SIR--

We hope you have not forgotten the Pacific Hospital, which is yours as well as ours. We sent you articles of Incorporation and By-Laws last Spring, and an announcement of our splendid start. Now we are glad to tell you that God has richly blessed our first year's work.

Although we opened without a patient ten months ago we have just had the pleasure of seeing every bed occupied at one time.

We started this year without a liability, and our resources include our fine 40-room buildings, with modern improvements, all paid for.

The results of our hospital work have been the very best. Half of our patients have paid regular hospital rates; most of the others about cost of board and nurse.

We have tried to do as we believe Jesus would have us do, and the Christian influence has been helpful to many. While using all modern methods of treatment we endeavor to make our hospital as much like a Christian home as possible.

Hospital is open to all reputable physicians.

We need more nurses in our training school, and will accept applications from consecrated Christian young ladies, who not only want scientific training, but want to give a part of each day's time to our Master's work.

Fraternally Yours,

H. A. HESS, M. D., Manager.

P. S.--Will you kindly read the above to your congregation, and use your influence in favor of the work we are doing, especially by sending pay cases, so that we may do them good and they in turn will help us to build up and add to our institution?

Rates are $10.00 to $30.00 per week, which are the lowest in any institution for the best care. A number of leading physicians have offered to treat free all cases unable to pay more than hospital price. Frat.,

H. A. HESS.
